Dear California Driver:

This report on traffic accidents in 1985 reflects the fact that we are seeing encouraging progress in traffic safety.

Deaths per miles of travel dropped to the lowest point in history. Equally encouraging were reductions in alcohol related fatalities and injuries. Truck caused deaths also dropped, as did motorcycle fatalities and injuries.

Unfortunately, while many of the figures indicate a positive trend, not all of this report is good news. The total number of injuries and deaths continued to rise -- a somber indication of the task still ahead.

Government has invested substantial funds for better roads, improved law enforcement, traffic safety programs, and driver awareness efforts. But the ultimate responsibility for traffic safety rests with each individual driver.

As Governor, I pledge the State's continued commitment to reducing the number and severity of traffic accidents, and I ask for your help in meeting this vital challenge.

Thank you for doing your part to make our streets and highways safer.

Most cordially,

George Deukmejian

PREFACE

The 1985 Annual Report of Fatal and Injury Motor Vehicle Traffic Accidents was completed as a result of motor vehicle traffic accident reports received from local police and sheriff jurisdictions and from California Highway Patrol field offices.

All fatal and injury accidents which occurred on California's state highways and all other roadways are reflected in this report, presuming that all accident reports were received by the department and processed.

Property Damage Only (PDO) accidents are only included in Section 8. However, the degree of completeness is in question since not all agencies report all their PDO accidents; PDO's are indicators of the volume of accident occurrences and are not exact statistics.

This report is prepared in acccordance with Section 2408 of the California Vehicle Code. The cooperation of all traffic law enforcement agencies is highly appreciated.

Copies of this report can be obtained from Staff Services Section, California Highway Patrol, Post Office Box 942898, Sacramento, CA 94298-0001 by payment of $3.50, which includes sales tax.

1985 California Quick Accident Facts

During 1985, California had a total of 517,003 traffic accidents, 4,422 fatal, 216,170 injury and 296,411 property damage only.

A traffic accident was reported every one minute and one second.

One person was killed every one hour and 47 minutes as a result of a traffic accident.

One person was injured every one minute and 38 seconds as a result of a traffic accident.

Children under the age of 15 accounted for 33.7% of pedestrian victims and 38.9% of bicycle victims (victims killed and injured).

For each person killed there were 65 persons injured. Speed was indicated as the Primary Collision Factor in 21.6% of the fatal and injury accidents.

In the last five years, 1,510,272 persons have been killed and injured in California traffic accidents. This is an average of 302,054 per year. During the previous five-year period, 1,481,016 persons were killed and injured for an average of 296,203 per year.

Of the licensed drivers in California, 30.1% were under 30 years of age; however, they comprise of 47.2% of all drivers in fatal and injury accidents.

One out of every 5,345 persons living in California was killed in a traffic accident; one out of every 82 persons was injured; and one out of every 46 licensed drivers was involved in a fatal or injury traffic accident.

As a result of the 4,422 fatal accidents, 4,933 persons were killed for an average of 1.1 deaths per fatal accident.

There were 2.4 persons killed and 155.4 persons injured for every 100 million vehicle miles of travel. (These are more commonly known as the mileage death and mileage injury rates.)

Hit-and-run was indicated in 9.1% of the fatal and injury accidents.

Dear California Driver:

The 1986 report of traffic accidents shows both encouraging and sobering facts about California traffic safety.

California's mandatory seat belt law has emerged as an important factor in helping to hold the line on the number of traffic fatalities and injuries in our state. For the second year in a row, the number of fatalities per mile of travel remained at the lowest level ever recorded in California.

Despite these encouraging indicators, the number of Californians injured or killed in traffic accidents continued to rise. Also, accidents involving alcohol and drug abuse remain an issue of great concern for motorists and law enforcement officials alike.

In the years ahead, the state will continue to demonstrate its commitment to making our highways and roads safer through our efforts to improve and expand transportation systems, by providing strong support for law enforcement and through comprehensive safety education and training programs. But in order for us to succeed, each citizen must also make a commitment to be a more cautious and safe driver.

As Governor, I pledge to all our citizens that we will continue our efforts to reduce the injuries and fatalities that plague our highways and streets. With your help, I am confident that we can meet this challenge.

Most cordially,

George Deukmejian

PREFACE

In accordance with Section 2408 of the California Vehicle Code, the California Highway Patrol has prepared the 1986 Annual Report of Fatal and Injury Motor Vehicle Traffic Accidents.

This report is the result of accident reports recorded in the Statewide Integrated Traffic Records System (SWITRS) received from local police, sheriff jurisdictions and California Highway Patrol field offices. The cooperation of all traffic law enforcement agencies is greatly appreciated.

The Annual Report is a statistical account of all fatal and injury accidents occurring on California's State highways and all other roadways, based upon actual reports received and processed by this Department.

Property Damage Only (PDO) accidents appearing in Section 8 are a sampling of PDO's because not all agencies report these accidents. Please view these numbers as indicators for the volume of traffic accidents and not as exact statistics.

Copies of this report can be obtained from Staff Services Section, California Highway Patrol, Post Office Box 942898, Sacramento, CA 94298-0001 by payment of $3.50, which includes sales tax.

1986 California Quick Accident Facts

During 1986, California had a total of 567,677 traffic accidents, 4,647 fatal, 233,004 injury and 330,026 property damage only.

A traffic accident was reported every 56 seconds.

One person was killed every one hour and 41 minutes as a result of a traffic accident.

One person was injured every one minute and 31 seconds as a result of a traffic accident.

Children under the age of 15 accounted for 34.4% of pedestrian victims and 37.9% of bicycle victims (victims killed and injured).

For each person killed there were 67 persons injured. Speed was indicated as the Primary Collision Factor in 22.3% of the fatal and injury accidents.

In the last five years, 1,570,351 persons have been killed and injured in California traffic accidents. This is an average of 314,070 per year. During the previous five-year period, 1,511,602 persons were killed and injured for an average of 302,320 per year.

Of the licensed drivers in California, 30.4% were under 30 years of age; however, they comprise 47.0% of all drivers in fatal and injury accidents.

One out of every 5,167 persons living in California was killed in a traffic accident; one out of every 78 persons was injured; and one out of every 44 licensed drivers was involved in a fatal or injury traffic accident.

As a result of the 4,647 fatal accidents, 5,222 persons were killed for an average of 1.1 deaths per fatal accident.

There were 2.4 persons killed and 161.6 persons injured for every 100 million vehicle miles of travel. (These are more commonly known as the mileage death and mileage injury rates.)

Hit-and-run was indicated in 10.1 % of the fatal and injury accidents.

Section 7
SHORT SUBJECTS

Section 7 has been expanded slightly to include more bicycle and motorcycle tables; this is as a result of the increased amount of interest expressed during 1986 in bicycle and motorcycle collisions.

Also included are tables presenting: Passenger Victims Killed and Injured Aged 3 and Under by County; Motor Vehicle Involved with Train; a statistical table providing data from 1933 through 1986; Primary Collision Factor Accident and Victim tables; and, Persons Killed and Injured in Hit-and-Run Accidents by Victim Classification by Age.
